Government Partners

Project Description

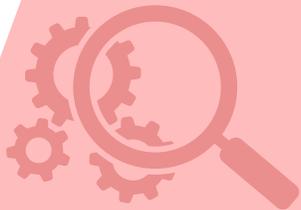

Technical Process

WE ARE
HERE

ASSESS

- Previous plan review
- Baseline conditions
- Needs assessment

EVALUATE

- Network development
- Evaluation framework
- Scenario evaluation

RECOMMEND

- Facilities
- Fleet and staffing
- Cost and funding
- Operator integrated network case studies
- Risk assessment
- Phasing
- Future updates

Project Outcomes

Facilities

Scale and locations of O&M and support facilities

Cost and Funding

Programmatic-level cost estimates for capital improvements and O&M

Fleet and Staffing

Identified based on programmatic outcomes of evaluation

Future Updates

Framework process that minimizes need for duplicative analysis

Risk Assessment

Strategies to mitigate risk and analysis of Title VI components

Phasing

Sequencing of planning & design efforts by investment package

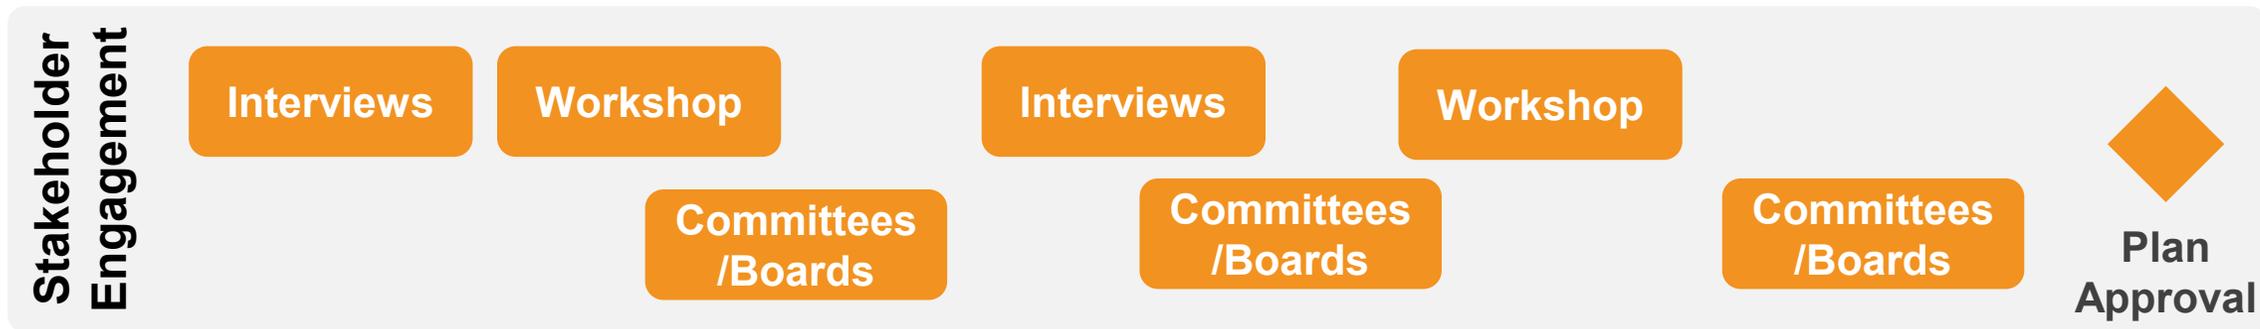

Operator Integrated Network Case Studies

Peer reviews of operators

Next Steps – Overall Project Schedule

WE ARE
HERE

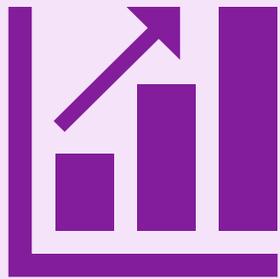

Vision and Goals

Vision and Goals

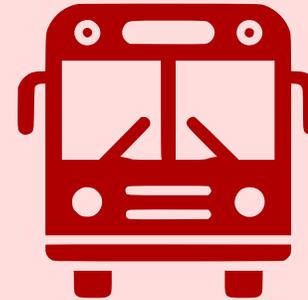

Develop an intentional plan for a cohesive network of transit services that supports growth, promotes equity, enhances quality of life, and facilitates opportunity across Central Oklahoma.

Provide communities with meaningful access to transit

Create a compelling, reliable rider experience

Offer competitive service options

Utilize resources effectively

Legend

- Resourced Projects
- Catalytic Regional Projects
- Unconstrained Regional Projects
- Intermodal Hub
